

TORQU3® SYNTHETIC CUTTING AND DEEP-DRAWING OIL

(Premium Quality, Multigrade, High Performance Engine Oils)

Multipurpose ester based neat oil. Designed for heavy duty cutting processes (e.g. thread cutting, tapping, gear hobbing, drilling, etc.) of steel, aluminium and copper alloys, especially advantageous for edge milling of cast aluminium plate (at high temperature, 300°C) because no stain is left on the metal at high temperature. In addition, it is suitable for sheet metal forming of stainless steels (e.g. deep-drawing).

PERFORMANCE BENEFITS

PERFORMANCE LEVELS, APPROVALS:

- ISO 6743-7: L-MHB

Protect the Environment

Dispose of used oils responsibly. Do not discharge into drains, soil or water.

LUBRICANTS

TORQU3® SYNTHETIC CUTTING AND DEEP-DRAWING OIL

Product	Deep Drawing Oil ES56
Kinematic viscosity at 40°C mm ² /s	55
Pour point°C	-27
Flash point (Cleveland)°C	308
Density at 15°C g/cm ³	0.935

These characteristics are typical of current production. Whilst future production will conform to TORQU3's specification, variations in these characteristics may occur.
